Implemented modifications to improve overall effectiveness of office personnel

PROJECTS

IMAGE GALLERY | http://165.227.23.41:3000/gallery

Created a gallery site using Handlebars and Node. Users have the option of registering so that they may add and edit links to images that they own.

PARKIT | http://mikadumont.com/parkit/

Created an IOS Application using React Native. Home owners are able to post a parking spot and rent it out to customers.

MONKEY SEE MONKEY FLU | https://gamejolt.com/games/monkey/315405

Received Cosmically Creative Community Award at Global Game Jam, the worlds largest game jam event. Within a 48 hour time frame, my team designed built and deployed a game.

CONSUME MORE STUFF | https://github.com/mika1490/consume-more-stuff

Created a content management system using React and Node. Users are able to register on the site and post images of items they wish to sell.
